Through Young Eyes is an undergraduate research showcase, featuring multidisciplinary presentations of thesis research related to childhood by senior majors. The panel of presentations and subsequent discussion will focus on children's and young people's agency and activism; construction and liberation; and active role as audience in order to offer a multidisciplinary examination of the co-creation of childhood and youth even in the face of opposing forces, as shown by examples from history, literature, and culture.

Chair: Sara Pankenier Weld (Germanic and Slavic Studies, UCSB)
